

Raindance Metropolitan District Nos. 1-4

Poudre Tech Metropolitan District/Water Valley Metropolitan District Nos. 1-2

On October 19, and October 20, 2022, the Boards of Directors of the Raindance Metropolitan District Nos. 1-4, Poudre Tech Metropolitan District, and Water Valley Metropolitan District Nos. 1-2 will discuss the potential of sharing recreation amenities between the Raindance community and the Water Valley community. *This will be a discussion only and no formal action / decision on this matter will be made at this meeting.*

Currently, Raindance residents are able to use Water Valley water amenities (lakes and beaches) for ½ of the costs of the non-resident use fee, and Water Valley residents are able to use Raindance water amenities (Raindance River Resort) for ½ of the cost of the non-resident use fee.

The Boards would like to discuss the merits and pitfalls of a more unified approach to managing the use of, and access to the various amenities within the Water Valley and Raindance communities, and the opportunities of sharing and providing community members access to all amenities. The Boards will also be discussing what constraints should and can be placed on non-resident (people who live outside Raindance and Water Valley) access to these same amenities.
