

## Watercraft Registration Form

The privilege of boating in Water Valley community comes with an agreement to adhere to detailed Rules and Regulations regarding use of our lakes and beaches. According to the Poudre Tech Metro District (PTMD), the entity which owns lakes and beaches, these rules must be followed by residents and/or their guests in order to protect everyone's health and safety. You may view the full set of rules by visiting [www.poudretechmetro.org/documents](http://www.poudretechmetro.org/documents). Residents and their guests using the premises of PTMD assume the risks of injury to person or property inherent to the lakes, beaches, recreation facilities, and to boating activities.

Recreational Passes, also available at the PTMD offices, must be carried at all times. All watercraft used must be registered through the PTMD office. Watercraft tags must be adhered on the back-right side of the watercraft, visible above the waterline. It is the right of PTMD to suspend the use of facilities for non-adherence. Use of watercraft after sunset must have running lights for nighttime operation. Noise, voices, and music after dark to be kept at a volume so as not to create a disturbance, or that carries further than 25 feet from the watercraft. No boating, fishing or swimming shall be permitted in close proximity to or along the Pelican Lakes Golf Course fairways on Habitat Lake, Rock Bridge Lake or Eagle Lake. Watercraft must be no longer than 24 feet using the U.S. Coast Guard Simplified Measurement System. Jet skis and similar personal motorized watercraft are prohibited. The speed limit is 5 mph. All watercraft shall operate at wakeless speeds at all times. Residents who plan to store watercraft on or near beaches overnight must store watercraft in designated areas only. Watercraft owners and their guests are responsible for understanding all PTMD rules and regulations.
